

Claude Létourneau joins Metafoam's Board of Directors

Montreal, September 21st, 2007

Michel Brûlé, Metafoam[®] Technologies' President of the Board of Directors, announces today that Mr. Claude Létourneau has been appointed as a member of its Board of Directors.

"Mr. Létourneau brings to Metafoam a vast expertise and knowledge of the electronics industry and his experience will be extremely beneficial in the future development of the Company," said Mr. Brûlé.

Claude Létourneau brings over 20 years of senior-level management experience in startups as well as international technological companies. He was President & CEO of Kontron Communications, a global leader in design and manufacturing of CPU boards and system-level solutions to telecom equipment manufacturers. He was Vice-Chairman of iPower Technologies and founding President & CEO of Avestor. He presently serves as CEO of Vaperma Inc.

About Metafoam Technologies

Metafoam Technologies Inc. is specialized in the development and commercialization of innovative open-cell metal foam solutions. Metafoam is revolutionizing the open-cell metal foam industry by offering the highest specific surface area and greater control on several key product parameters. As such, Metafoam is exceptionally positioned to address a wide range of needs, namely in electronics cooling and electrochemistry.
